

SELF SERVICE

SELF SERVICE

■ L'affidabilità dei prodotti DESCO si specchia anche nella linea Self Service, base perfetta per servire qualsiasi pietanza. I clienti finali possono così apprezzare la bontà di ogni piatto, perché ogni elemento è studiato in linea con la mente attenta di uno chef, affinché vengano rispettati tutti i parametri igienici per mantenere intatte le qualità organolettiche degli alimenti.

Le innumerevoli possibilità di composizione della linea DESCO Self Service sono sinonimo di massima libertà nella personalizzazione del layout di distribuzione dei pasti. Elementi refrigerati, caldi e neutri sono realizzati con materiali di qualità per garantire solidità della struttura e rispetto delle più severe normative igieniche.

DESCO sarà il tuo successo.

■ The reliability of DESCO products is also reflected in the Self-Service line, a perfect shelf for serving any dish. Ultimate customers can appreciate the delicacy of food as every element is studied consistent with the attentive mind of a chef, so that all hygiene parameters are maintained to keep the organoleptic qualities of food unchanged.

The numberless possibilities of composing the DESCO Self-Service line give you the chance to arrange the food distribution layout as you wish. Refrigerating, warming and neutral elements are built with quality materials, which are in compliance with the strictest hygiene regulations and make the construction very solid.

DESCO will be your success.

■ Desco è un marchio di Ilsa spa.

La sua storia ha origine nel **1962** quando una piccola impresa artigiana di Reggio Emilia iniziò la produzione di attrezzi per bar e per la piccola ristorazione.

In seguito, nel **1980**, da un'idea del titolare e del responsabile commerciale, nasce il macchinario italiano grazie al quale Desco è stato riconosciuto a livello mondiale come inventore del **CUOCIPASTA**.

Alla fine degli anni 80 Desco continua la sua ascesa nel mercato mondiale di cucine industriali ampliando la sua gamma con la **SERIE 700 e 900**.

Nel **1992** brevetta il **MODULINO ALZACESTELLI** abbinato al cuocipasta per l'automatizzazione della cottura della pasta.

Nel **2001** crea **"LA FRIGGITRICE AD ALTO RENDIMENTO"** alla quale tutt'ora viene riconosciuta una resa superiore del 20% rispetto a molte delle migliori friggitrici presenti sul mercato.

Nel **2005** Desco entra a far parte del gruppo **Ilsa spa**.

Nel **2007** Desco decide di rinnovare completamente la sua gamma con un **DESIGN NUOVO** e innovativo dando allo Chef la possibilità di scegliere una cucina professionale capace di rispondere alle necessità di affidabilità, potenza ed eleganza.

Ad oggi, in una struttura di 12.000 mq, l'azienda è dotata di un sistema di controllo qualità che prevede: verifica delle materie prime, collaudo dei prodotti, ispezione prima della spedizione e, infine, archiviazione automatica e valutazione periodica delle segnalazioni di difetto ricevute. La vasta gamma di attrezzi per la **REFRIGERAZIONE**, la **PREPARAZIONE STATICÀ**, il **LAVAGGIO**, il **SELF SERVICE**, le **TRE linee** complete di **COTTURA** e l'ampia linea di **FORNI** permette ai professionisti del settore di ottenere cucine professionali complete e ad elevate prestazioni.

Ideate da un'azienda che da sempre crede e investe su sviluppo e ricerca, le cucine italiane Desco sono tra le più affidabili, potenti e sicure presenti sul mercato di tutto il panorama internazionale.

■ Desco is a company which is part of the group **Ilsa spa** since 2005.

His story begins in 1962 when a small craft business of Reggio Emilia began manufacturing equipment for bars and snack bars.

Later, in 1980, the brainchild of the owner and sales manager, was born the Italian machinery that will ensure that Desco is globally recognized as the inventor of PASTA. At the end of the 80 Desco continues its meteoric rise in the world market of industrial kitchens expanding its range with SERIES 700 and 900.

In 1992 he patented the ALZACESTELLI modulate combined with pasta cooker for the automation of the pasta cooking.

In 2001 he created "THE DEEP FRYER HIGH PERFORMANCE" which is still recognized a higher yield of 20% compared to many of the best deep fryers on the market.

In 2007, Desco decided to completely renew its ranges donating to a NEW DESIGN and innovative giving the chef a chance to choose a professional kitchen capable of responding to the needs of reliability, elegance and power.

To date, in a facility of 12,000 square meters, the company has set up a quality control system that provides verification of raw materials, product testing, inspection before shipment, and finally, automatic archiving and periodic assessment of reported defect receipts. The wide range of equipment that perfectly modular refrigeration, STATIC PREPARATION, washing, SELF SERVICE, the complete lines of THREE COOKING OVENS and the broad line allows professionals to get professional kitchens complete and high performance.

Designed by a company that has always believed and invests in research and development, kitchens Italian Desco are among the most reliable, powerful and safest on the market of the whole international scene.

SELF SERVICE 700

Self 700 permette di realizzare postazioni per la distribuzione con la massima flessibilità nella composizione. I numerosi elementi modulari freeflow possono essere utilizzati singolarmente, come banchi o come isole, o accostati tramite l'elemento di unione per un utilizzo in linea. Per il freddo sono a disposizione piani o vasche refrigerate ed elementi vetrina. Elementi caldi come bagnomaria e piani riscaldanti ed elementi neutri completano la linea.

Self 700 has been designed to create a solution for the distribution of elements with maximum flexibility in the composition. The numerous free flow elements can be used independently as counters or islands, or combined together thanks to a series of connection elements. Cool is provided by refrigerating shelves or baths and glass doors. Warming elements for bain-marie cooking and warming shelves and many other neutral elements complete the line.

SELF SERVICE 800

La linea Self 800 consente di realizzare soluzioni per il self service in linea, con elementi modulari caratterizzati da giunzioni a filo per un accostamento perfetto dei piani e una pulizia rigorosa. Sono disponibili elementi freddi come unità con piano o vasca refrigerata e vetrine refrigerate ed elementi caldi quali bagnomaria o piani riscaldanti in vetroceramica. Completano la linea una grande varietà di elementi neutri a giorno o armadiati, elementi per inserimento carrelli ad angolo ed elementi cassa per un allestimento completo e flessibile.

The Self 800 line offers the opportunity to create in-line self-service solutions with modular elements, which are characterised by integral connections, creating a seamless transition for a perfect combination of tops and strict cleanup. Cooling elements, refrigerating baths or top units, refrigerating shelves and warming elements, such as bain-marie baths or glass ceramic heating surfaces, are some of the available elements. The line is completed with a great range of neutral external or built-in elements, angle sliding shelves and drawers for a complete and flexible solution.

ACCESSORI

SELF SERVICE 800

Numerosi accessori ed elementi complementari disponibili per Self 800 e Self 700 permettono di arricchire il layout con dettagli funzionali che conferiscono valore aggiunto al sistema di distribuzione. Tra questi, elementi porta vassoi, posate, pane e bicchieri, tramogge, scorriavassoi, ripiani, cristalli frontali, zoccoli, carrelli porta piatti e carrelli sollevatori.

Many complementary elements and accessories for Self 800 and Self 700 complete the layout and design with functional details, which provide added value to the distribution system. Among these, tray, cutlery, bread and glass containers, hoppers, sliding tray shelves, shelves, front glass units, baseboards, dish and lifting trolleys.
